

CEN-PE-CO GL4 GEAR LUBE

Cen-Pe-Co GL4 Gear Lube is a red tacky gear lube designed for manual transmissions calling for API GL4. Manual transmissions have bronze synchro gears, and GL5 axle lubricants can attack them, causing a corrosive/mechanical wear. Cen-Pe-Co GL4 Gear Lube has Extreme Pressure (EP) additives for the drive gears, but at half the amount necessary to meet GL5 requirements, therefore prolonging the life of synchro gears.
